### Shigellosis

The number of reported cases of Shigellosis during week 1 of 2026 is 1. The deviation from the previous week is (1).

The reported cases are classified as confirmed.

From the beginning of the year the number of reported cases is 1. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (1).

Регистрирани случаи на Дизентерия (шигелоза) по седмици в Република България  
Reported number of cases of Shigellosis by weeks in Bulgaria

## Pertussis

The number of reported cases of Pertussis during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 4. The deviation from the previous year is (-4).

## Leptospirosis

The number of reported cases of Leptospirosis during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## Botulism

The number of reported cases of Botulism during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## Yersiniosis

The number of reported cases of Yersiniosis during week 1 of 2026 is 1. The deviation from the previous week is (1).

The reported case is classified as confirmed.

From the beginning of the year the number of reported cases is 1. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (1).

## Campylobacteriosis

The number of reported cases of Campylobacteriosis during week 1 of 2026 is 7. The deviation from the previous week is (0).

The reported cases are classified as confirmed.

From the beginning of the year the number of reported cases is 7. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (7).

## Typhoid fever

The number of reported cases of Typhoid fever during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## **Legionnaires` disease**

The number of reported cases of Legionnaires` disease during week 1 of 2026 is 0. The deviation from the previous week is (-1). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## **Congenital rubella**

The number of reported cases of Congenital rubella during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## **Viral meningitis and meningoencephalitis**

The number of reported cases of Viral meningitis and meningoencephalitis during week 1 of 2026 is 1. The deviation from the previous week is (-2).

The reported case is classified as confirmed.

From the beginning of the year the number of reported cases is 1. For the same period of the previous year the number of reported cases is 3. The deviation from the previous year is (-2).

## **Crimean-Congo haemorrhagic fever**

The number of reported cases of Crimean-Congo haemorrhagic fever during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## **Mediterranean spotted fever (Boutonneuse fever)**

The number of reported cases of Mediterranean spotted fever (Boutonneuse fever) during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## **Meningococcal infection**

The number of reported cases of Meningococcal infection during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## ***Listeriosis***

The number of reported cases of Listeriosis during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## ***Brucellosis***

The number of reported cases of Brucellosis during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## ***Tularaemia***

The number of reported cases of Tularaemia during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## ***Acute viral hepatitis ABCDEN***

The number of reported cases of Acute viral hepatitis ABCDEN during week 1 of 2026 is 20. The deviation from the previous week is (0).

The reported cases are classified as: 1 possible, 1 probable and 18 confirmed.

From the beginning of the year the number of reported cases is 20. For the same period of the previous year the number of reported cases is 8. The deviation from the previous year is (12).

## ***Hemorrhagic fever with renal syndrome***

The number of reported cases of Hemorrhagic fever with renal syndrome during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

## ***Q fever***

The number of reported cases of Q fever during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

**Ornithosis**

The number of reported cases of Ornithosis during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

**Tetanus**

The number of reported cases of Tetanus during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

**Anthrax**

The number of reported cases of Anthrax during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

**Pneumococcal meningitis**

The number of reported cases of Pneumococcal meningitis during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 1. The deviation from the previous year is (-1).

**Streptococcal meningitis**

The number of reported cases of Streptococcal meningitis during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

**Haemophilus influenzae meningitis**

The number of reported cases of Haemophilus influenzae meningitis during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 1. The deviation from the previous year is (-1).

**Bacterial meningitis (other bacteria)**

The number of reported cases of Bacterial meningitis (other bacteria) during week 1 of 2026 is 1. The deviation from the previous week is (0).

The reported cases are classified as probable.

From the beginning of the year the number of reported cases is 1. For the same period of the previous year the number of reported cases is 3. The deviation from the previous year is (-2).

**Rotavirus gastroenteritis**

The number of reported cases of Rotavirus gastroenteritis during week 1 of 2026 is 3. The deviation from the previous week is (-2).

The reported cases are classified as confirmed.

From the beginning of the year the number of reported cases is 3. For the same period of the previous year the number of reported cases is 21. The deviation from the previous year is (-18).

**SHIGA/VERO toxin producing *E. coli* infection (STEC/VTEC)**

The number of reported cases of SHIGA/VERO toxin producing *E. coli* infection (STEC/VTEC) during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

**West Nile virus**

The number of reported cases of West Nile virus during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

**Tick-borne Encephalitis**

The number of reported cases of Tick-borne Encephalitis during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

**Pneumococcal invasive disease**

The number of reported cases of Pneumococcal invasive disease during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

**Variant of Creutzfeld-Jakob**

The number of reported cases of Variant of Creutzfeld-Jakob during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

**COVID-19**

The number of reported cases of COVID-19 during week 1 of 2026 is 34. The deviation from the previous week is (0).

The reported cases are classified as confirmed.

From the beginning of the year the number of reported cases is 34. For the same period of the previous year the number of reported cases is 33. The deviation from the previous year is (1).

### **Lyme neuroborreliosis**

The number of reported cases of Lyme neuroborreliosis during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

### **Monkeypox**

The number of reported cases of Monkeypox during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

### **Denga**

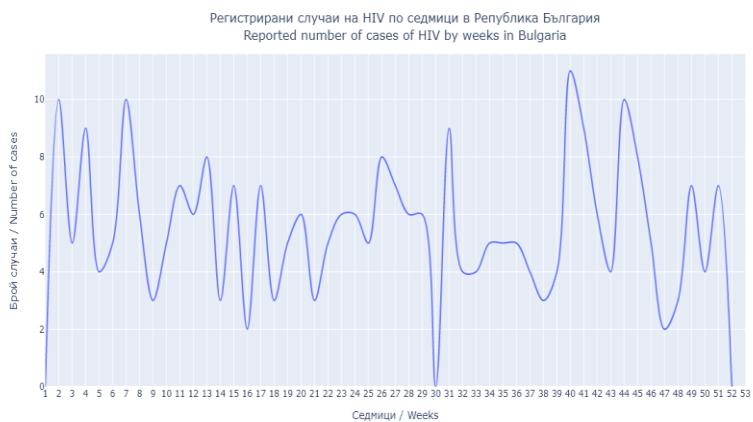

The number of reported cases of Denga during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

### **Cholera**

The number of reported cases of Cholera during week 1 of 2026 is 0. The deviation from the previous week is (0). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 0. The deviation from the previous year is (0).

### **HIV**

The number of reported cases of HIV during week 1 of 2026 is 0. The deviation from the previous week is (-10). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 2. The deviation from the previous year is (-2).

### **Gonorrhea**

The number of reported cases of Gonorrhea during week 1 of 2026 is 1. The deviation from the previous week is (0).

The reported case are classified as confirmed.

From the beginning of the year the number of reported cases is 1. For the same period of the previous year the number of reported cases is 2. The deviation from the previous year is (-1).

### ***Chlamydial Infection***

The number of reported cases of Chlamydial Infection during week 1 of 2026 is 1. The deviation from the previous week is (-1).

The reported case is classified as confirmed.

From the beginning of the year the number of reported cases is 1. For the same period of the previous year the number of reported cases is 1. The deviation from the previous year is (0).

### ***Syphilis***

The number of reported cases of Syphilis during week 1 of 2026 is 4. The deviation from the previous week is (1).

The reported cases are classified as confirmed.

From the beginning of the year the number of reported cases is 4. For the same period of the previous year the number of reported cases is 1. The deviation from the previous year is (3).

### ***Congenital Syphilis***

The number of reported cases of Congenital Syphilis during week 1 of 2026 is 0. The deviation from the previous week is (-1). From the beginning of the year the number of reported cases is 0. For the same period of the previous year the number of reported cases is 1. The deviation from the previous year is (-1).
